# CNC

ROUTING AND CUTTING

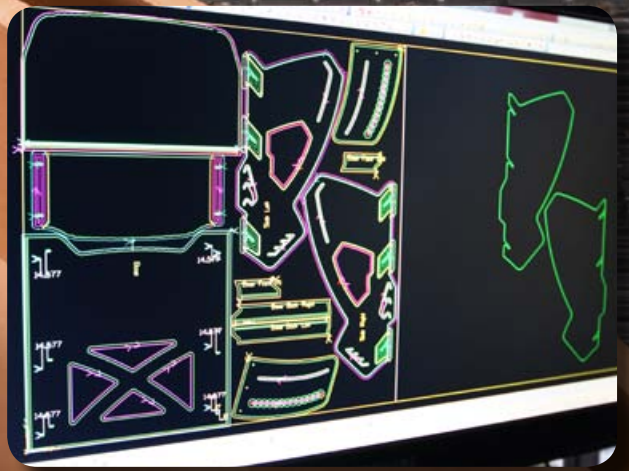

## **Rohan Woodworking – taking imagination to reality**

Utilising the most up to date design software allows us to turn your concepts into components or products.

We use your own drawings or design, placing you very much in control of your concept. The resulting detail is then transferred directly to our CNC machining centre where the required sheet material is quickly and accurately converted.

- **Programming service**
- **Accurate cutting**
- **Precision drilling**
- **Milling/machining**
- **Curves/shapes**
- **Acrylic/plastic**
- **Solid laminates**
- **MDF/MFC/Chipboard/Plywood**
- **Dibond (aluminium bonded sheet)**

**Please enquire about other materials.**
